# CASE STUDY

**GRIDCo**

- Ghana Grid Company is an electricity transmission company in Ghana, GRIDCo was incorporated on December 15, 2006 as a private limited liability company and started operations in 2008.
- The establishment of GRIDCo is intended to develop and promote competition in Ghana's wholesale power market. This is through the provision of transparent, non-discriminatory and open access to the NITS for all the participants in the power market; particularly, power generators and bulk consumers and thus bring about efficiency in power delivery.

## CHALLENGE

Monitoring of all activities in expansion and implementation of transmission systems projects across country. Manage subcontracting functions of transmission construction projects.

Financial management and accounting of all operations and assets of the company, automate process of payments and receivables. Automate Payroll functions across HR management.

Process integration across Sourcing, Purchasing & Inventory functions of the company, automate expense management. Maintain, buy & sell portfolios of investments for employee welfare and benefits.
